Entry Description

- The Sagoma (or Silouhette) is a unique and one-of-a-kind Showpiece and Fruit Bowl made in Italy.
- A marriage between Marble and Metal. 24K Gold Fins are flowering out from its Marble core and create a Sagoma (a Silouhette or a Shape) of a bowl.
- The bowl is a high-end sculpture and art piece that will add luxury and blend nicely with its surroundings, be it Classic, Traditional or Modern, yet it will still stand out and shine.
- It has a very light feel and transparency due to the simple curved core and the well-distributed fins creating a see-through and airy light shape yet bold and solid.
- Three Marble types for the Core (Grigio Carnico, Arabescato Carrara, Fior Di Pescoto) complement the 24K Gold fins.
- The process, from the design stage to Engineering and creating the first Sagoma piece, took a year and a half, a collaboration between two continents amid COVID and all its challenges.
- We are very proud to present Sagoma.
