Description

SILO gives tribute to the Beirut Port Explosion.

The Four cylinders represent the Silos and their destruction.

From left to right, the Open shelf cylinder represents the destruction of the silos, and it moves up from a partially destroyed silo and ends up as a complete full cylinder.

The Full cylinder represents the rebuild, hopes and better days to come. The plant version emphasizes rebirth and growth.

The Whole world was shocked and saddened by this event, and all prayed for all affected individuals so something like this would never occur anywhere in the world.

The Silo Unit comes in Low & High base versions; Marble Top, Lacquer finished cylinders, tinted glass shelves, self-closing hinges and full extension drawer slides.

Considering the environment, all wood paints have no-to low-VOC.

Peace to the World
