Description

SILO gives tribute to the Beirut Port Explosion.

The Four cylinders represent the Silos and their destruction.

From left to right, the short Silo represents the destruction of the silos, and it moves up from a partially destroyed silo and ends up as a complete full cylinder.

The Full cylinder represents the rebuild, hopes and better days to come, and the plant for rebirth and growth.

The Whole world was shocked and saddened by this event, and prayed for all affected individuals so something like this would never occur anywhere in the world.

The Silo Desk Organizer comes in different Marble Types on a lacquered MDF base. The flat marble piece can be used as a coaster or paperweight. In Total there are seven silos.

Considering the environment, all wood paints have no-to low-VOC.
